

## **Reporting Student Grades**

### **Warnings**

Notices of academic warning are sent via the ISIS system to students who are in danger of failing a course. Academic warnings are also reported to the Academic Dean.

### **Grades and Final Reports**

It is the policy of Landmark College to provide students at the midterm with a letter grade for each class in which they are enrolled, based on the specific course objectives. At the end of the semester, students receive a letter grade and a comment for each class.

Any student enrolled in a course as of final exam week receives a final grade and final report for the course. The final report is entered in ISIS when the final grade is submitted to IQ Web.

If a student is granted an extension, the instructor of the course will submit a final report in ISIS when submitting the final grade to IQ Web.
