# Congratulations!

We are so pleased to welcome you as an accepted student to the Landmark College Summer Session for Visiting College Students! Like it has for so many students who have participated in the program before you, we are confident that your participation in the program will provide you with a transformational experience. Not only will you gain an in-depth understanding of your learning differences and personal learning style and build learning strategies in the academic areas most difficult for you, but you will make good friends that will last long after the program is over.

This guide has been put together to give you an overview of the program and how to best prepare for your 5 weeks on campus. Our goal when you arrive on campus this July is to have you say “I’m ready”!

## Enrollment Forms & Program Updates

One of the first things you should start doing is completing the various forms that will be required for program registration. The more forms you complete and return ahead of time, the less time you will spend in line on your arrival to campus.

Beginning in April, all of the forms you will need to complete can be found on your Student Onboarding Portal. You will receive instructions on how to access your portal when you receive your Landmark College e-mail, username and password from our IT department.

## New Student Orientation

### For Students

New Student Orientation is your introduction to becoming a student and community member at Landmark College. We have planned a program that will do three things:

- Give you a chance to meet and make connections with your fellow classmates.
- Help you acclimate to your new living & learning environment by giving you time to settle into your residence hall and get to know your way around campus.
- Help you prepare for the first week of your academic program by introducing you to the program and some of the services available to you as a student.

### For Families

In addition to the student programs, the College will offer optional orientation programs and workshops for families. These are intended to provide more in-depth information about the program, and give an opportunity for families to ask any question or raise any specific concerns before they leave campus.

### Monday, July 8th – Classes Begin

## The Academic Program

### Session Overview

Our summer program features morning and afternoon classes, along with opportunities for sports, recreational activities and the chance to explore Vermont's beautiful countryside. In your application, you indicated a preferred track of study; Track A, which focuses solely on skills development or Track B, which includes our skills development course and an opportunity for you to earn transferable college credit in one of our credit electives.

### Summer 2018: Courses for Visiting Students

#### Narrowing the Gap—Becoming A More Strategic College Student (Required for all Visiting Students)

This required, non-credit course is the key to Landmark College's summer program, teaching visiting college students how to function better in school and improve everyday self-management. Through this structured, stimulating, and supportive course, you will learn strategies and resources for improving your executive function, working memory, study skills, and ability to meet commitments. You will become a self-advocate in identifying and experimenting with the kinds of support you need for success. The instructor for this course will serve the as the student's academic advisor for the duration of the five-week program.

In addition, students will take courses based on their program track:

## Track A—Developmental Writing Track (Students will choose one developmental writing course)

- **Structure, Style, and Strategies—Demystifying Academic Writing**  
This course examines in detail the various factors that may have caused students to struggle with college writing, while taking a highly individual approach to the development of self-understanding and effective strategy use. Because most students in the course have had the experience of being diagnosed or labeled with some type of learning difference, the course uses self-understanding of learning differences and your social context as a focus for writing assignments. Students are expected to complete regular writing assignments inside and out of class to improve fluency, to engage in a variety of strategies for planning, generating, and organizing papers, and to complete several papers.
- **Establishing an Effective Writing Process—Improving Your Academic Functioning**  
In this course, students will learn and practice approaches to managing college writing assignments by generating daily writing and learning how to improve executive function. Included is the examination of various genres of writing. Students can elect to take this course for credit, and are required to submit a completed e-Folio of writing assignments demonstrating proficiency in writing skills.

## Track B—Combined Developmental and Credit Track (Students will take their choice of a single credit elective course from the list below)

- **Ceramics I** (3 credits)
- **Introduction to Biology** (4credits)
- **Film Adaptations of Literature** (3 credits)
- **Introduction to Psychology** (3 credits)
- **Special Topics: Keats to Kendrick:Prosody Poetry Song** (4 credits)
- **Statistics** (3 credits)

*\*All colleges don't always accept all transfer credits. Students intending to transfer credits back to their home institution are encouraged to identify the most suitable course with their home institution.*

*\*\*Landmark College strives to provide you with the courses you choose. However, enrollment is limited to 15 students per class to ensure a highly personalized learning experience. For this reason, classes are assigned on a first come, first come basis, based on date of deposit. Students choosing to enroll in Track B only, please indicate your top four elective choices, with #1 being your first choice.*

### Class Schedule (Monday-Friday):

Students can put together a program that allows them to get the most out of Landmark during the five weeks they are here. Courses meet five days a week (M-F) and each class runs for 2 ½ hours, either from 9-11:30 a.m. or from 1:30-4:00 p.m., with some exceptions. You will be enrolled in the required *Narrowing the Gap* class either in the morning or afternoon, depending on the other courses you choose. You may also elect to take credit physical education courses at the end of the day as a way to unwind, get in shape, meet people, and have fun. When you

are not in class, you can choose to engage with some of the many services that Landmark has to offer, which are listed within this booklet.
