“Action is the fundamental key to success.” Pablo Picasso

Opportunity lives in every corner, every classroom, and every decision you make. As a college student you will experience excitement, frustration, illumination, and exhaustion. And this is as it should be because your world will be spinning on its axis, and your brain will be creating new neural pathways every day. You will receive a planner from us that will help you navigate your semester. This planner is your glue. It will help you see what you are doing, what you need to do, and where you are going. Intentions are great; actions are better. Use this planner every day as a guide, a reminder, a resource for information. Planning affords you the opportunity to be thoughtful in your decisions and predict outcomes. This will help you become the person in charge of your academic experience.

Welcome to Landmark College. We are so glad you have joined this wonderful community. May your journey be filled with discovery, friendships, and newfound confidence.

Kelly O’Ryan

Dean of Students & Director of Student Conduct

Welcome to the Landmark community!

As stakeholders in this community, you have a rich opportunity to help define and uphold the values that make this place so special. We hope you navigate each day with respect, compassion, and empathy for yourself, your peers, and the larger community. We also hope you will seek out opportunities to strengthen and share your passions and creative talents, or perhaps develop some new ones in your time here. You have undoubtedly heard a great deal about college life and the importance of being independent; do not let that deter you from the value of celebrating interdependence and seeking support when you need it. You have a strong safety net around you eager to support where you need it, rest comfortably in that knowledge and let it spur you to take risks in exploring new endeavors.

Please feel free to swing by, email, or join for lunch – I would welcome the opportunity to connect.
