1

NOTE: Admission requirements for the High School Summer Program, which is a three-week, non-credit program for current high school students, are not equal to the requirements for admission into Landmark College's undergraduate programs. Admission to and success in this program are not indicative of a student's admissibility to Landmark College or any other college programs.

WHY CONSIDER

LANDMARK COLLEGE'S SUMMER PROGRAM FOR HIGH SCHOOL STUDENTS?

IS YOUR TEENAGER:

- Studying, but not retaining information?
- Starting assignments, but unable to finish them?
- Struggling in some or all classes?
- Finding the increasing demands of high school and pre-college courses to be more of a challenge than expected?

2

If you are concerned about your teen's future performance in high school and college, our acclaimed summer programs can offer the support your student needs.

Landmark College is the college of choice for students with language-based learning disabilities (such as dyslexia), ADHD and ASD. We have more than 30 years of leadership in developing innovative academic strategies and techniques for students who learn differently. Since 2002, we have provided high school students with a "taste of college" through our targeted summer programs.

We focus on helping rising juniors and seniors who want to become more effective and independent learners by:

- Exposing students to specific skill and strategy development in small, personalized classes that will help them to prepare for what they'll experience at the college level
- Introducing concepts of self-understanding and self-advocacy in a college-like setting

What Students Say About LC's High School Summer Program

"I learned how to prioritize my work load more effectively."

"The most valuable aspect of the program for me was getting out of my comfort zone and trying new things."

"The Learning Strategies Seminar was most helpful because I learned not about math or English, but about myself."

PROGRAM BENEFITS

Our summer faculty and staff will help your student:

- Begin to understand individual learning styles, especially their own
- Develop a writing process that uses proven techniques to write faster, more clearly, and with fewer struggles
- Integrate strategies and practices into content courses
- Begin to focus on the development of better daily habits
- Consider the challenges students face in a college setting

About The High School Summer Program

Landmark College's High School Summer Program immerses students in a structured learning and living experience. The faculty includes members of LC's teaching faculty, as well as local high school teachers who are specifically chosen for their extensive experience in helping students to become more independent and effective learners. Also on campus during this program are current LC undergraduates and visiting college students who are taking college-level credit courses as part of a summer session.

A SOCIAL PRAGMATICS TRACK is available for students who have strong academic potential but have challenges related to a diagnosis of autism spectrum disorder or a similar diagnosis. (See page 5 for details.) Students in this track follow the same schedule as and share many activities with the traditional track of the High School Summer Program, but also participate in programming designed specifically for their needs and interests.

DESIGNED TO CHALLENGE STUDENTS WITH SERIOUS ACADEMIC WORK, the High School Summer Program allows students to gain exposure to effective writing techniques; identify strategies for success in school; collaborate with peers; connect with adults who care; and begin to better understand themselves. Faculty and staff are focused on providing students with experiences in and out of the classroom that will better prepare them for college and allow them to try out new, more productive strategies in an environment where they are understood. Our goal is to help students be successful in their future educational pursuits.

VALUE ADDED

At the conclusion of the program, an individual assessment of your teen's overall college readiness in terms of executive function, communication, self-awareness, and self-advocacy will be provided.

Also included is an overview of their understanding of the complexities of living and learning within in a community of like-minded students.

4

SUMMER PROGRAM

ACADEMICS

**COURSEWORK IS BROKEN INTO THREE AREAS,
AND ALL STUDENTS TAKE THREE CLASSES.**

See page 15 for course descriptions

- Learning Strategies Seminar **or** College Living and Academic Strategies
- Writing Class (Three levels/options available)
- Choice of a single general elective

CO-CURRICULAR ACTIVITIES

Students choose an afternoon activity that they will participate in three times per week.

Past offerings have included:

- Artistic Self-Expression
- Basketball
- Ceramics
- Dance
- Film Discussion
- Magic: the Gathering
- Soccer
- Theater Tech
- Yoga

Students also have the opportunity to leave campus to participate in planned group activities and to explore the local area. These supervised activities and events are designed to support the goals of the program by increasing confidence, self-understanding, effective communication, and self-advocacy.

Residential Life: It is our intention to provide students with a “taste of college.” At the same time, the High School Summer Program provides structure and support to encourage individual success.

Students live in double-occupancy residence hall rooms. Halls are well staffed by professional Resident Directors (RDs) and a host of college-aged mentors known as Resident Assistants (RAs). The residential life staff plays a key role in each student’s experience by helping them engage in the community and ensure a secure and positive overall experience within the program. These staff members are there to help guide students as they navigate the challenges of living and learning within a community of like peers.

Social Pragmatics Track

LAUNCHED IN 2013, this track is designed for students who display characteristics of autism spectrum disorder (ASD) or similar diagnoses. Students will benefit from a greater focus on learning and practicing techniques that will allow them to better manage a variety of social environments, as well as to gain a better understanding of the importance of language and behavior in social and academic settings.

PARTICIPANTS SHARE MOST ACTIVITIES AND CLASSES with the traditional track with additional programming aimed at their needs and interests. In particular, this specialized track features an extended on-campus orientation and a residential staff ready to support students through challenges like sensory integration, changes in routines or overall environment, and group participation. Students are encouraged to understand the specific challenges they may face in a college setting and to begin to monitor their own behavior in order to find greater success. Upon completion of the program, students receive a personalized individual assessment of their strengths and challenges with regard to college readiness.

LANDMARK COLLEGE'S 2018 HIGH SCHOOL

SUMMER PROGRAM

FOR RISING JUNIORS AND SENIORS

"Simply put, Landmark College knows how to serve students who learn differently better than any other place on earth."

Princeton Review's K&W Guide

Other Landmark College Summer Programs

TRANSITION TO COLLEGE: Supports the needs of recent high school graduates who have been admitted into a college or university other than Landmark College.

SUMMER SESSION FOR VISITING COLLEGE STUDENTS: Designed specifically for current college students who are struggling to find solid academic success. This program focuses on building executive function skills. Participating students can earn college credit, depending on course selections.

INTENSIVE WORKSHOP FOR SUCCESS IN COLLEGE: Held on the campus of the University of California – Berkeley, this rigorous, five-day workshop helps new and continuing college students feel more confident and better prepared for their fall classes. Landmark College instructors introduce various test-taking strategies, time management techniques, and note-taking skills, as well as active reading and useful technology applications.

6

NEW SUMMER TRANSITIONAL ENRICHMENT PROGRAM (STEP): Designed for college-bound high school juniors and seniors with high-functioning ASD, the intention of this program is to help students build academic and social skills and strategies for the transition to college. Held on the beautiful campus of George Williams College on Geneva Lake in Wisconsin and offered in partnership with Aurora University.

Applicant Statement

By applying to Landmark College’s High School Summer Program and signing this application for admission, I indicate my understanding that this is a three-week, non-credit residential program designed to help students become more effective and independent learners. The program includes academic classes and recreational activities. I understand that I must be prepared to attend class meetings and do nightly coursework. I recognize that students who are motivated to meet Landmark College’s high standards and expectations generally realize improved academic performance. Conversely, students not prepared to put forth thoughtful and considerable effort toward achieving the program goals, or who may have issues secondary to academic performance that require their focus, may have difficulty achieving the learning outcomes of the program. I further understand that admission to and apparent success in this program are not indicative of my admissibility to Landmark College or any other college programs.

My signature below indicates that the information in my application is correct, inclusive, and honestly presented.

All students take three courses:

- Learning Strategies Seminar **or** College Living and Academic Strategies
- Writing Class (three levels/options available)
- Choice of a single elective

Learning Strategies Seminar (Required – Traditional Track)

Provides a foundation for other coursework and activities in the summer program. Students explore the “science” behind learning — from how the brain processes information to why factors such as nutrition, sleep, exercise, and learning differences affect how we learn. Students learn about skills and strategies, including technologies they can use to improve their ability to learn.

College Living and Academic Strategies (Required – Social Pragmatics Track)

Much like the Learning Strategies Seminar, this class provides a foundation for coursework and activities within the program, while paying special attention to helping students better understand the nuances of verbal and nonverbal communication.

Choose a Writing Course (Select One of Three Levels/Concentrations)

All writing courses cover the basics of good writing: coherent thinking, expressive presentation, individual style, and use of appropriate language. Students select one of the following:

- Building Confidence as Writers**
For students not yet completely comfortable with the writing process.
- Writing the Effective Essay**
For students who have a good sense of the writing process. Many students use this class to begin working on their college application essay.
- Research and Writing**
For students who are comfortable with the writing process and are seeking to challenge themselves a bit.

For more information about writing courses, please go to landmark.edu/summer/high-school-programs

Elective Course (Select a First, Second, and Third Choice Elective)

We make every effort to provide students with their first choice elective; however, class size is limited for this program in order to provide a personalized learning experience for students. Accepted and deposited students are placed in classes on a first-come, first served basis.

Please note that although course changes are available, because of the brevity of the program, schedule change requests should be made no later than Thursday, July 19. Schedule changes made after that date are made on a case-by-case basis in consultation with the High School Summer Program Academic Director.

Please indicate your first, second, and third choice by placing the appropriate number (1, 2 or 3) beside your selections.
