How Do We Pay For This?

1. Institutional Grants
2. Outside Scholarships
3. Federal / State Grants
4. Federal Loans
5. Private Loans
6. Savings & Gifts
7. Tax Savings Through Deductions & Credits

An **“Itemized Deduction”** (such as medical expenses) goes on Schedule A (along with charitable deductions, mortgage interest, real estate taxes, and state and local income taxes subject to certain limitations in 2023 & 2024. Must exceed 7.5% of Adjusted Gross Income (AGI) for the 2023-24 tax year. You need more than $27,700 (married filing jointly, $13,850 single) in Itemized Deductions for 2023 (25,900 and 12,950 in 2022) to exceed the “Standard Deduction” to benefit from “itemizing.”

Itemized Deductions reduce your taxes based on your marginal tax rate (e.g. $10,000 deductions in excess of the standard deduction) x 22% resulting in a tax savings of $2,200.
A “Tax Credit” is a dollar-for-dollar reduction in tax (e.g., a $2,000 tax credit lowers your taxes by $2,000!)

A “Refundable Tax Credit” is much better. You get the money even if you owe no taxes! The maximum refundable portion of the American Opportunity tax credit is $1,000. (40% of the total credit allowed).
“Avoidance of taxes is not a criminal offense. Any attempt to reduce, avoid, minimize, or alleviate taxes by legitimate means is permissible. The distinction between evasion and avoidance is fine yet definite. One who avoids tax does not conceal or misrepresent. He shapes events to reduce or eliminate tax liability and upon the happening of the events, makes a complete disclosure. Evasion, on the other hand, involves deceit, subterfuge, camouflage, concealment, some attempt to color or obscure events, or making things seem other than what they are.”

In america, there are two tax systems: one for the informed and one for the uninformed. Both are legal

The Education Tax Credit

For 2023, the American Opportunity Tax Credit can be used for:

✔ 4 years per child

✔ Maximum tax credit of up to $2,500 of college costs (100% of the first $2,000 of costs plus 25% of the next $2,000 of costs per child, for a total of $2,500 per child)

✔ Up to 40% of the credit is refundable.
For 2023, the American Opportunity Tax Credit has a **phase-out provision**: 

√ Individuals with incomes of up to $90,000 and Married Couples with incomes of up to $180,000 can qualify for credit for each student.

- 907-Tax Highlights for Persons with Disabilities, page 4
Landmark College's tuition, room and board and fees may qualify as a medical deduction for tax purposes.

**Publication 502 Special Education**

- You can include in medical expenses fees you pay on a doctor's recommendation for a child's tutoring by a teacher who is specially trained and qualified to work with children who have learning disabilities caused by mental or physical impairments, including nervous system disorders.

- You can include in medical expenses the cost (tuition, meals, and lodging) of attending a school that furnishes special education to help a child to overcome learning disabilities. Overcoming the learning disabilities must be a principal reason for attending the school, and any ordinary education received must be incidental to the special education provided.

- You cannot include in medical expenses the cost of sending a child with behavioral problems to a school where the course of study and the disciplinary methods have a beneficial effect on the child's attitude if the availability of medical care in the school isn't a principal reason for sending the student there.
In addition to tuition and fees, other costs such as:

- Books
- Computers
- Travel and other educational-related expenses may be tax-deductible

We recommend that you consult your tax advisor (first thing Monday) regarding the deductibility of these expenses in your situation.
Medical Care

Medical Care includes amounts paid (A) for the diagnosis, cure, mitigation, treatment or prevention of disease, or for the purpose of affecting any structure or function of the body (including amounts paid for accident or health insurance) (and) (B) for transportation primarily for any purpose related to medical care.

Section 213(d)(1) & (2) of the Internal Revenue Code of 1986.
Medical Expenses

You can include in medical expenses the cost (tuition, meals, and lodging) of attending a school that furnishes special education to help a child overcome learning disabilities. Overcoming the learning disabilities must be a principal reason for attending the school, and any ordinary education received must be incidental to the special education provided.
What Do You Need?

There are numerous IRS rulings and court cases have allowed a deduction where a formal diagnosis by a Doctor or other qualified professional exists of a specific condition that requires treatment.

(c) 2023 Russell K North, CPA
E.F. Glaze vs. Commissioner (TCM 1961-244) - establishes criteria for deducting costs as medical expenses:

- The principal purpose of expenditure is for “medical” reasons,
- If the expenditures directly relate to the treatment, and
- Could the treatment reasonably be expected to be effective.

Lawrence D. Greisdorf (54 TC 1684)

- Medical deduction allowed since principal purpose for attendance was school’s therapeutic value and wasn’t its incidental educational benefits.
Private Letter Ruling 8401024

School servicing students with Dyslexia ruled to qualify as a “Special School” under the definition of I.R.S Regulation 1.213-1(e)(1)(V)(a) thus qualifying expenses as medical deductions.

Private Letter Ruling 8447014

Curriculum of a special school may include some ordinary education, but this must be incidental to the primary purpose of the school to enable the student to compensate for or overcome a handicap, in order to prepare that student for future normal education and living. If the school qualifies as a special school tuition and other expenses, including expenses of transportation to and from the school to the extent such transportation is primarily for and essential to the Medical care, are deductible.
Helping the student overcome a physical or mental handicap and move on to normal education and living is the essence of special education. Normal education is not medical care because it is not designed to help someone overcome a medical disability. Thus, a physician or other qualified professional must diagnose a medical condition requiring special education to correct the condition for that education to be medical care.
The school need not employ physicians to provide that special education but must have professional staff competent to design and supervise a curriculum providing medical care. Overcoming the learning disabilities must be a principal reason for attending the school, and any ordinary education received must be incidental to the special education provided.

Document all your medical costs (including mileage) to maximize your tax deductions and further reduce the after-tax cost of your Landmark investment.
Qualifying Child & Qualifying Relative:

- Medical or education deductions/credits are available only for individuals for whom you can claim as a dependency subject to certain exceptions for medical deductions.

Mileage Rates:

- Medical . 22 in 2023
- Business 65.5
Fortifying Your Deduction

- Add a statement to return detailing the medical deduction claimed and principal purpose for attendance at Landmark College for its therapeutic values, illustrative example available.

- If selected for audit, provide details of deduction, information about Landmark College, and various reference materials to your representative or the IRS agent if you are handling your own case, not generally recommended.

- Critical to stress to the IRS agent that therapeutic treatment was the primary reason for attendance at Landmark College and the education received was incidental to this treatment.
Other Tax Strategies

- **Withdrawal from Health Savings Account:** If tax-free expenses qualify for the medical deduction, no medical deduction is allowed for amounts withdrawn from an HSA account (can’t take both an HSA deduction and an itemized medical deduction).

- **Withdrawal from ROTH IRA account:** Amounts contributed/converted come out first, no taxes due. Earnings after 59 1/2 and five years of account being open are tax-free. Can still claim Medical deduction or Education credits if otherwise eligible.

(c) 2023 Russell K North, CPA
Other Funding Methods

- **Withdrawal from an IRA account**, taxable, but withdrawals for education expenses and medical expenses in excess of 7.5% of AGI are not subject to a 10% early withdrawal penalty. Expenses still qualify for medical/education deduction or credit if qualification criteria are met. Income will increase AGI which may affect deductions and credits.

- **Withdrawal from Qualified Plan**, if allowable and if structured as a loan, it is nontaxable if repaid. If not repaid - taxable. If structured as a taxable withdrawal, funds used for medical expenses in excess of 10.0% of AGI are not subject to the 10% penalty; education does not
